Review and Update**  
Rick Klaus  
Osprey Corporation  
Atlanta, GA

**Rick Klaus** was born in Green Bay, WI and has worked over 35 years in the tissue and nonwoven disposables market as a sales and management professional.

He started his education in the tissue market as a production employee at the former Fort Howard Paper Company in 1972, prior to his service in the US Navy.

After leaving the service he began his career working 17 years with Paper Converting Machine Company (PCMC) in

Green Bay. There he pursued a BS in business graduating from Lakeland College in 1986.

In 1995, Klaus moved into a sales management role in the adhesive equipment sector working nearly 20 years with Nordson Corporation.

Retiring from Nordson in March 2015, he was pulled back into the tissue industry by Osprey Corporation, a leading supplier in the process air handling industry. Since returning to the industry Klaus has presented at Tissue World in North America and as a guest instructor at the TAPPI Tissue Converting 202 course.

**Getting the Most Out of Your Consultants**

Steve Lucy, Natalie Harvill  
JQ Engineering  
Dallas and Lubbock, TX

Cofounder of the Dallas branch in 1994, **Steve Lucy**, PE serves JQ Engineering as CEO. With a significant portfolio of engineering projects with varying project delivery methods over nearly three decades, Lucy guides clients through all stages of a project, from inception to procurement to project completion.

He is a regular contributor on best business practices to The Zweig Letter, a leading publication for the architecture, engineering, and environmental consulting industry.

Lucy is a graduate of Texas A&M University with a master's

degree in civil engineering. He currently serves on the Advisory Council for the College of Engineering and is Past-Chair of the Advisory Council for the Zachry Department of Civil Engineering at Texas A&M.

Lucy has been named an honorary member of both the Texas Society of Architects and the Dallas chapter of the American Institute of Architects.

**Natalie Harvill**, PE, LEED AP, is principal at JQ Engineering's Lubbock, TX office.

As a structural engineer, she has directed engineering design for over 300 projects for clients in areas such as healthcare, industrial, commercial, sports, entertainment, and education in the West Texas area, as well as across the eastern part of the United States.

Harvill is a graduate of Texas Tech University with a bachelor's degree in civil engineering.

Her leadership roles have included president, region director and, MATHCOUNTS director of the local chapter of the Texas Society of Professional Engineers.

She is passionate about keeping and bringing in more females to the engineering industry. This led to her developing the Professional Women's Forum to assist in mentoring and educating women in making the most of the resources available to promote their careers.
